

DISKO

Be fast. Achieve consistency. Protect your arms.

Main features & Advantages

- 1) High speed tamping:** just 1.5 seconds. Your workflow gains speed.
- 2) Automatic portafilter recognition** (thanks to metallic reader sensor): enhance speed and safety during workflow.
- 3) Pressing force customizable:** from 10 to 30 kilos, to get an even and consistent tamping.
- 4) Compact** and modern design: it **fits easily in every barista's workspace.**
- 5) Possibility to select between single or double tamping** (sequential): choose the tamping profile you prefer.
- 6) High- speed maintenance:** the "Clean mode" enables to lower and (possibly) remove the tamping disk.
- 7) Metal Body combined with Rubbered feet:** ensuring solidity and stability on the counter.
- 8) **Universal fork,** easily adjustable in height, **compatible with any kind of filter holder** (single/double/naked).
- 9) Limitless tamps per day:** use it how often you need in your workspace.
- 10) Made to last:** Disko can keep up to 400'000 tamps, to support high consumption shops and chains.
- 11) Ready to suit your needs:** thanks to the Tamper Kits available as separate accessories, you can easily update and switch the standard 58 mm tamping disk according to your portafilter type. This means that you can update your DISKO at any time, even if you change your coffee machine.
- 12) Easy to clean:** thanks to the new gasket that prevents coffee grounds from accumulating in the disc.

Available tamper diameters: 53 / 54,3 / 57.3 / 58/ 58,3mm*.

***Standard configuration is available in 58 mm. 53 / 54,3 / 57.3 / 58,3 mm are available as separate accessories.**

**** currently not compatible with La San Marco portafilter**

Maintenance kit available:

- . Allen key is included to adjust the height of the fork
- . Brush to clean hard-to-reach places

Brand:
Accessories

Range:
Tamper

Target:

A barista or a home user that wants to speed up their workflow and obtain a reliable result in its coffee extraction, removing the pressing variable. Plus, it avoids unnecessary fatigue in high volume coffee shops.
