

Specification/Data sheet

Transport trolley for mobile oven racks model 6-2/1, 10-2/1 - Standard

Article number: 60.73.999

Description

The transport trolley enables the easy loading and unloading of a mobile oven rack also outside of a tabletop unit as well as safe transport.

The standard version perfectly matches the height for unit setup on stands.

Features

- Mechanism for securely locking the transport trolley with the standard slide-in rail
- 4 tandem castors (2 with parking brake - metal parts made from CNS)
- Inclusion of an additional mobile oven rack
- Handle for easy entry and exit of the mobile oven rack in and out of the cooking system

Technical specifications

- Weight: 19.6 kg
- LxWxH: 996 x 735 x 990 mm

Material

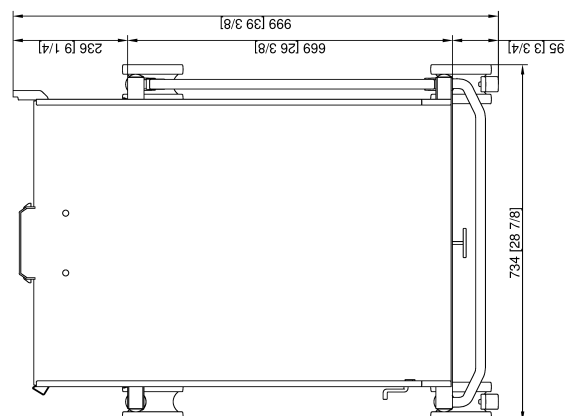

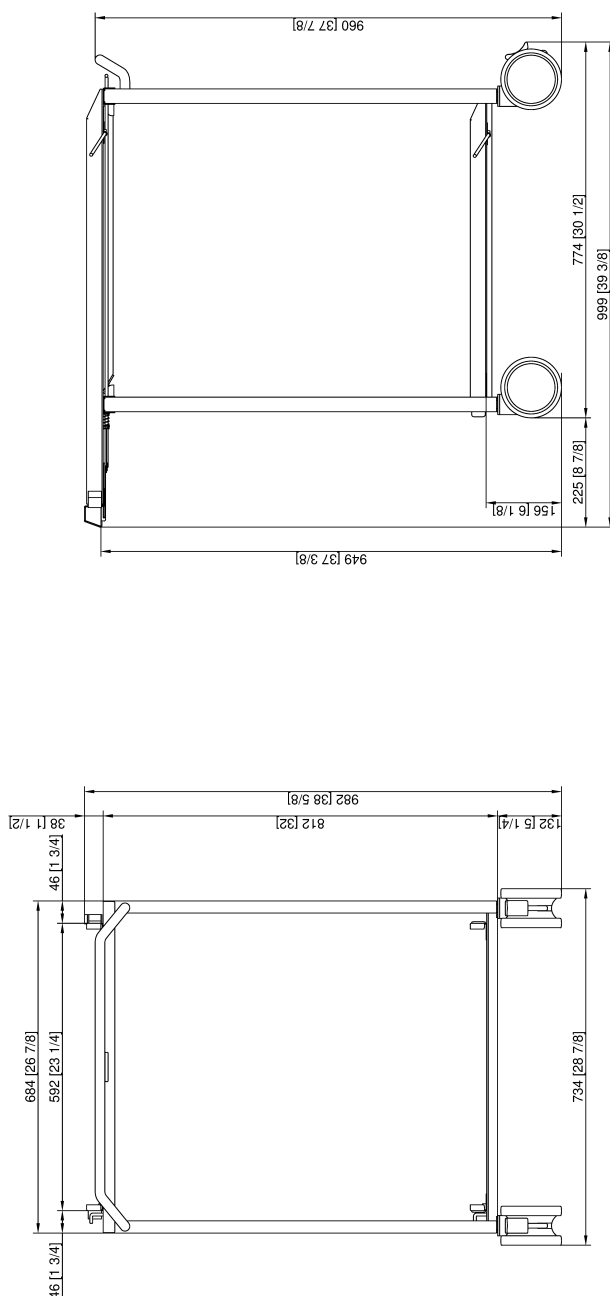

- Rust-free stainless steel (CNS 1.4301)

Note

- Only in combination with standard slide-in rail
