SERVE PERFECT CHIPS EVERY TIME
Super crispy on the outside and fluffy in the middle.
For results your customers can see and taste.

NOT ALL FRYERS ARE EQUAL

What is the true cost of inconsistent quality, slow cook times and shorter oil life? Whilst some fryers look the same, they fall short where it matters. Frymaster fryers have gained legendary worldwide reputation for productivity, consistency, durability and reliability.

There's a reason why Frymaster is Australia's #1 choice of fryer.
