

Specification/Data sheet

Combi-Duo electric compatibility version

Article number: 60.76.XXX

Description

Kit for the professional combination of an iCombi Pro or iCombi Classic tabletop unit on a SelfCookingCenter or CombiMaster Plus tabletop unit. You can use two different operating modes at the same time without needing additional space.

Technical Specifications

60.76.500 Combi-Duo electric compatibility version 1/1, suitable for:

- iCombi 6-1/1 E/G on SelfCookingCenter or CombiMaster Plus from 09/2011 to 05/2020 model 61, 101 E, right-sided hinge

60.76.575 Combi-Duo electric compatibility version 2/1, suitable for:

- iCombi 6-2/1 E/G on SelfCookingCenter or CombiMaster Plus from 09/2011 to 05/2020 model 62, 102 E, right-sided hinge

Material

- CNS 1.4301

Note

Please note that the lower cooking system must be an electric unit. In the case of a new Combi-Duo configuration, a corresponding substructure for the SelfCookingCenter or CombiMaster Plus must be ordered separately:

- 60.60.349 Combi-Duo substructure for feet model 61/101
- 60.60.968 Combi-Duo substructure mobile with rollers model 61/101
- 60.31.649 Stand I Combi-Duo only for model 6-1/1 on model 61
- 60.60.392 Combi-Duo substructure for feet model 62/102
- 60.60.513 Combi-Duo substructure mobile with rollers model 62/102
- 60.31.650 Stand I Combi-Duo only for model 6-2/1 on model 62
